subjects are being taught in the same institution and particularly the 9th paper of syllabi gives freedom to the students to choose the same of other subjects. The university has also embarked on the multidisciplinary approach in research in particularly Santali department which will work together with subjects viz; humanities and social science. Santal academy is multidisciplinary.

#### **17.Academic bank of credits (ABC):**

Since the NEP 2020 are yet to be adopted at Post Graduate Level, therefore all things associated with it are in pipeline.

#### **18.Skill development:**

The syllabi in terms of 5th paper in all subjects, especially designed to develop skill development such as mushroom cultivation, basic computer skill, communication skill, medical laboratory techniques etc. are being imparted to the students as part of regular course.

#### **19.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)**

The basic mode of teaching is bilingual: Hindi and English. Some of the departments are also using regional language Santali as third language. Since the students hail from different cultural milieu, however, the harmony and unity prevail in the campus. The celebration of festivals and important days of tribal heroes make the things easier for mobility of cultural ethos as ingredients for Integration of Indian Knowledge System. The Santal Academy is dealing exclusively with promotion of Local Tribal Culture and skills. The modes are basically offline but at times online.

#### **20.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):**

The syllabi are regularly revised with objective of achieving outcomes of the lesson taught in the institution. The current session students have started pursuing the courses with expected outcomes of their study. Especially the objectives and outcomes are clearly mentioned in each paper of the subject. The objective is to make the application of knowledge in practical life.

#### **21.Distance education/online education:**

The institution switches on to online teaching, as and when required as per the directives of state government. The online seminars, viva voce and teaching of core subjects are also done particularly when situation requires speedy completion

of syllabi.

## Part B

### CURRICULAR ASPECTS

#### 1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which is reflected in Programme outcomes (POs), Programme Specific Outcomes(PSOs) and Course Outcomes(COs) of the Programmes offered by the University

As the University is located in a region characterised by the predominance of the tribal wisdom ubiquitously reflecting in their culture, values, and way of life, it tries indomitably to incorporate all the significant points associated with their life and philosophy into the academic curricula so that extensive research in the region may flourish leading to not only the advancement of knowledge, but wider geographical dissemination of the benefits of such academic exercise. Curricula of regular academic programmes and courses are designed with the intent to enhance the awareness level of all the stakeholders about the vital components of the tribal way of life, e.g. their traditional wisdom and their emotional commitment to issues like conservation of forests, water bodies, and the fertility of soil. As far as possible, the University tries to promote learning and exploratory activities in such a manner that the benefits of the local wisdom may disseminate nationally as well as globally so that academic horizon strives towards greater development level.

Some syllabi also specifically mention Course Objectives and Course Outcomes.

### **1.3 - Curriculum Enrichment**

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

The department imparts the lessons of environment and its sustainability to the students as part of their elective papers in semester-4 M.Sc. Zoology. The chief issues of environmental matrix & dynamics have been included in the syllabus. Natural disaster and management, ozone layer depletion, biodiversity, waste management, bioremediation are quite relevant for enriching the knowledge of students and their application to be used in amelioration of degrading environment. Besides, the students are exposed to learn the environmental issues by doing fieldwork and practical application of their knowledge by means of their involvement in plantation programme, survey and experiment from laboratory to land and field work. Course of professional ethics is to be introduced soon.

Gender equity programmes are given emphasis by holding seminars and webinars on special occasions like Women's Day are celebrated on regular basis. Gender sensitization programme are also held under internal complaint committee (ICC) from time to time even in collaboration with other institutions.

**2.2 - Catering to Student Diversity**

2.2.1 - The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners

The slow learners are provided with adequate academic support by arranging remedial classes for them. The sessions are conducted to focus on the difficulties and problems raised by the students either in person with the teacher or in the class. The lessons are explained based on their learning speed. Some model answers to the questions on the fundamentals of the subject and commonly important ones such as related to competitive exams are also discussed. Their learning capability through mock tests and interactions are further fortified. During Covid restrictions regular contact with students was maintained by most teachers telephonically, Whatsapp and other social media, when fast learners were guided through regular lesson plans and slow learners were given more time.

The slow learners are taken utmost care by assessing their response in the class. The sitting order is continuously changed to instil confidence in them. Questions are asked during classes and such students are even brought before the blackboard to explain the topic on its completion. For this 15 minutes time slot is given for interacting freely with the teachers.

### 2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Fieldwork in collaboration with local NGO, visit of nearby industrial units for pollution assessment, fish diversity study etc. and solving the problems that occur during survey provide enough experiential learning. The group activities are taken care of by involving students in small groups on different topics. Learning by preparing models and flow chart and placing them in the department are the trivial means to focus on participative learning and problem-solving methodologies.

2.3.2 - Teachers use ICT enabled tools including online resources for effective teaching and learning processes during the year

The classes and examinations are chiefly conducted offline. However, all the teachers are using android mobile phones and P.C. for smooth running the classes. WhatsApp is found to be one chief means of exchange of information between students and teachers. Zoom app & Google meet have been the most common platforms for delivering the lectures. Even the teachers use the audio visual facility available in the smart classrooms.

2.5.3 - IT integration and reforms in the examination procedures and processes (continuous internal assessment and end-semester assessment) have brought in considerable improvement in examination management system of the institution

The examination section has adopted the online mode for submission of examination forms and fees, issuance of hall tickets and publication of result along with online availability of marks sheets to the examinees who appeared at the end semester examination. The end semester result is also published at the University website. Two internal examinations are conducted to evaluate the examination preparedness of the students. Students who are lagging behind are particularly marked and are called for Remedial Classes for doubt clearing on topics of syllabus. There has been a general trend of improvement of marks in second Internal Test with a positive

impact on final university examination.

### 2.6 - Student Performance and Learning Outcomes

2.6.1 - The institution has stated learning outcomes (generic and programme specific)/graduate attributes which are integrated into the assessment process and widely publicized through the website and other documents

All programs run by the PG departments of the university in which students are pursuing their courses whether generic or programspecific are assessed by their outcomes in the form of end semester result. The efficacy of transfer of knowledge is done by the evaluating the result and particularly the excellent performance in the form of good number of students getting 75% and more as an index of learning outcomes. The result is published and uploaded on university website for easy access to the students and concerned persons. The Hard copies of the same arealso made available to all departments of the university.

2.6.2 - Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution during the year

All evaluations are done by conducting internal assessment tests twice for each semester and one end semester examination of university level. For this objective, short answer and long answer type questions are asked to assess program outcomes, program specific outcome and course outcomes. The syllabus also contains program outcomes & objectives of the paper of syllabus.

The passed out students are exploring for good avenues in academic and other competitive examinations.

## RESEARCH, INNOVATIONS AND EXTENSION

### 3.1 - Promotion of Research and Facilities

3.1.1 - The institution Research facilities are frequently updated and there is well defined policy for promotion of research which is uploaded on the institutional website and implemented

The research facility and related policy are mentioned in the notification of periodical entrance exam and admission of candidates for Ph.D. Course work. The laboratories is are also periodically updated with highly sophisticated instruments and appliances as for conducting Ph.D. work. Recent admission of huge number of candidates who are declared successful in PET examination has given momentum to research activities in different departments. The existing Ph.D. regulation is being further upgraded to increase the standard of research as advised by the State Government.

The State Government will provide financial assistance to all the eligible teachers to promote research in university and colleges. Implementation of Ph.D. regulation 2022 will bring about necessary up-gradation in research policy.

### GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 - Institutional Vision and Leadership

6.1.1 - The institution has a clearly stated vision and mission which are reflected in its academic and administrative governance

##### Vision and Mission on the Board

1. Bottom-up and not Top-down approach of planning: The planning process of the University commences from the grass-root level. Constituent/Affiliated

Colleges, University Departments, and all other academic, sports, cultural and administrative wings of the University design a plan in accordance with their needs and vision of development after intensive deliberations at their level. Subsequently, inputs provided by these units constitute the broad basis on which the University officials design plans which can most effectively promote the interest of the University.

This "Bottom Up" approach to planning leads to the designing of plans which are in the best interest of the University. Participative nature of planning and management: Democracy and decentralization constitute the cornerstone on which the structure of planning and management of the University assumes shape. While designing policies and plans, each and every individual associated with the University gets ample opportunities to express his/her opinion in meetings convened specially for the purpose. The meeting can be in the form of a general body meeting or meeting of a statutory bodies like Academic Council, Finance Committee, Senate, and Syndicate. Following inputs received from these deliberations, the planning process slides towards a concrete shape. Thus, each faculty member, student, non-teaching employee, parent, or alumni always gets the satisfaction of being heard and that his/her views matter in the functioning of the University.

6.1.2 - The effective leadership is reflected in various institutional practices such as decentralization and participative management

The Hon'ble Vice Chancellor heads all the statutory and on statutory bodies but the decision on the concerned matted comes out in the fom of meeting's resolution. Coordinators,Conveners, Directors have been appointed to look after the different specific committees & Departments along with some other members to assist him.The Hon'ble Vice Chancellor has overall superintendence over these bodies which submit the report from time to time. Library, MBA, MCA, Santal Academy, IQAC , ICC, admission are working on highly decentralized manner with devolution of power to different people. All administrative sections: Accounts, Constrction, Examination, RUSA, Student Welfare following the statutes of university work in unision to reachthe goal. They have been given autonomy in many fields to deal with the problems and find the solution. Even the Vice-Chancellor calls meetings of statuary & non statuitory bodies, Heads & Deans and provide opportunity for fruitful deliberatitons and to find a logical conclusion.

| <p>The students pursuing Postgraduate Course in different subjects hail from composite society consisting of different castes, creeds, religion etc. and therefore sense of tolerance and harmony is considered to be of utmost importance. The Sadbhavana Divas and communal harmony day is celebrated to impact the spirit of communal harmony among the students. Since the majority of students belong to tribal community , they are given special care in terms of their participation in all the functions in majority. Therefore sincere efforts are taken by the institution to promote all students across different strata of society in order to create an inclusive macrocosm and instil confidence in all sections of society. Commemoration of birth anniversary of National freedom fighters and their participation especially from tribal world is done with institutional celebration of Hul Divas, signifying the role of two tribal heroes of tribal rebellion against British: Sido Murmu and Kanhu Murmu is a testimony of candid efforts of the University to create an inclusive environment. Dress code applicable to all also is also proved to be pivotal reflecting a sense of equality and brotherhood.on constitution Day every year the fundamental duties areread under article 51A of the constution. 7.1.9 - Sensitization of students and employees of the institution to constitutional obligations: values, rights, duties and responsibilities of citizens:

The institution celebrates constitution day, 26th November every year to disseminate the salient features and spirit of constitution. The students and faculty members actively participate in the speech competition on the provisions of constitution. Fundamental rights and fundamental duties. social, economic and political justice are the focal areas of discussion. Since the students hail from different sections of society therefore understanding of constitutional rights equip them to become a responsible citizen with a concept of balance between fundamental right & duties enshrined in the constitution of India. Commemoration of Ambedkar jayanti with debate on history of development of constitution also substantiate the significance of constitution among the students .

The objective seems to be achieved as the students are always found to be disciplined without any unrest in the campus. The university takes care to create an inclusive environment and to a bridge the gap between haves and haves not.

**7.1.10 - The Institution has a prescribed code of conduct for students, teachers, administrators and other staff and conducts periodic programmes in this regard. ## 7.2 - Best Practices

7.2.1 - Describe one best practice successfully implemented by the Institution as per NAAC format provided in the Manual

**Title of the Practice:**Expansion of non conventional source of energy: the solar energy

**Objective:**

To reduce the consumption of electricity with a view to save non renewable form of energy

**Context:**

To cope with ever increasing load on power consumption and uninterrupted pwer supply.

**Evidence:**

The administrative and examination blocks of the university are successfully using solar energy in operation of allequipments andlight.

**Problem:**

Sometimes cloudy weather condition hampers the function of solar panels.

## 7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

Since majority of the students come from low income group residing in remote areas, the institution pays attention for quality education at nominal fee. The curriculum is designed in such a fashion that provides opportunity to the students to meet the global standard at a low cost. The institution promotes the accessibility of education to those who hail from highly marginalised section of society. The objective is to give equal opportunity to all who wish to pursue Post Graduation from this university. Besides the number of female students has increased considerably even outnumbering male students in many departments, thus proving to be a means of women empowerment.

#### 7.3.2 - Plan of action for the next academic year

1. The institution will be equipped with all administrative and infrastructural facilities to facilitate implementation of NEP 2020.
2. Augmentation in signing more MoUs with other renowned universities and industriars for the students to undertake internship with feasibility of student exchange program.
3. Initiatives will be taken to finish the construction work of all under construction buildings including womens' hostel so as to strengthen the infrastructural facilities.
4. The University also plans to strengthen the mechanisms designed for the benefits of slow and advanced learners.
5. Efforts for enhancing research activities by allocation of fund from State Government.
6. Office management system with file tracking system will be introduced for time bound clearance of files for speedy execution of direction.
7. Entire campus to be equipped with solar energy.
8. Addition of a some new departrments to provide opportunity to the students to opt subjects of their choice as well as promotion of Interdisciplinary and multidisciplinary modes in postgraduate courses and research.
